

VISHAL ARASU

Product & Growth Analytics | SQL • Python • Tableau • Experimentation

vishalarasu1303@gmail.com | Bengaluru, KA | +91 8904394400 | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

Product and Growth Analytics professional with 3+ years of experience using SQL, Python, and experimentation frameworks to optimize user funnels and revenue outcomes.

Experienced in translating complex datasets into actionable insights through A/B testing, dashboarding, and customer segmentation across fintech, healthcare, and logistics environments.

CORE COMPETENCIES

Product & Growth Analytics • Funnel & Conversion Analysis • A/B Testing • Customer Segmentation

Revenue & Pricing Analytics • KPI & Dashboard Development • Stakeholder Communication • Process Optimization

PROFESSIONAL EXPERIENCE

Strategy & Product Lead, Garuda Glide, Oct 2025 - Present

Bengaluru, India

- Spearheaded the end-to-end evaluation and integration of a Transport Management System (TMS), defining requirements, coordinating vendor onboarding, and reducing manual dispatch coordination by streamlining operations across the logistics workflow.
- Redesigned the company website with a focus on service clarity and client conversion, improving positioning of core logistics offerings and supporting inbound lead quality for enterprise clients.
- Led a team of 3 analysts on KPI reporting and performance reviews, translating operational data into structured insights for team leads and driving accountability across fulfillment and dispatch functions.

Strategy Analyst, Garuda Glide, Feb 2025 - Oct 2025

Bengaluru, India

- Produced weekly KPI reports and performance dashboards for team leads across operations and dispatch, translating raw logistics data into clear trend summaries and actionable performance insights.
- Identified and proposed process optimizations across consignment tracking and vendor coordination workflows, reducing handoff delays and improving on-time fulfillment visibility for operations leads.
- Conducted structured operational reviews with team leads, presenting trend analyses on route efficiency, carrier performance, and cost variances to support data-driven planning decisions.

Product Analytics & Insights Co-op, Fidelity Investments, Jan 2024 - Jul 2024

Boston, MA, USA

- Engineered 500+ behavioral features to build customer segmentation models, improving Account Opening Conversion Rate (AOCR) by 6% and enabling targeted marketing strategies.
- Designed and executed A/B experiments on email campaigns, increasing open rates by 33% and CTR by 5%, improving customer engagement and campaign-driven revenue performance.
- Built Tableau dashboards tracking acquisition, activation, and funnel conversion metrics, enabling teams to monitor campaign performance and optimize onboarding.
- Automated SQL workflows and optimized 6+ Snowflake dashboards, reducing load times by 75% and eliminating 60% of manual reporting processes.
- Analyzed user behavior and campaign data to identify drop-off points in the customer journey, supporting improvements in product onboarding and engagement strategies.

Tools: SQL, Python, Tableau, Snowflake, A/B Testing Frameworks

Customer Insights Analyst, AmalgamRx, Jan 2022 - Sep 2022

Wilmington, DE, USA

- Analyzed 50K+ patient and provider datasets to identify key revenue drivers and usage trends, contributing to 15% month-over-month growth in recurring revenue.
- Applied NLP techniques on 10K+ patient feedback entries to identify sentiment patterns and improve response accuracy in patient support operations.
- Generated insight reports highlighting user behavior trends and product usage patterns to inform product and support team decisions.

Operations Analyst, Netlog Express, Jan 2021 - Dec 2021

- Developed forecasting and regression models on ₹20L+ operational spend to improve budgeting accuracy by 15%.
- Designed BI dashboards tracking operational KPIs including inventory movement, fulfillment accuracy, and logistics performance.
- Conducted root cause analysis on 1,500+ SKUs to identify supply chain inefficiencies, reducing revenue leakage and inventory errors by 7%.

Bengaluru, India

VOLUNTEERING & NGO EXPERIENCE

Growth & Revenue Analyst, BrightMind Enrichment Organization, Jul 2025 - Jan 2026

- Built grant tracking datasets and KPI dashboards to support leadership decision-making on revenue forecasting and partnership strategy.
- Analyzed donor engagement patterns to identify high-performing funding channels and improve resource allocation.

Remote, USA

EDUCATION

Northeastern University

Master of Science Data Analytics Engineering, CGPA – 3.5/4.0

Boston, MA, USA
Dec 2024

New Horizon College of Engineering affiliated with VTU

Bachelor of Engineering Computer Science, CGPA – 8.88/10.0

Bengaluru, India
Jul 2022

TECHNICAL SKILLS

- Analytics & Programming:** SQL, Python, R programming, Excel VBA
- Data Visualization & BI:** Tableau, Power BI, Looker, Qlik, Excel
- Product & Growth Analytics:** Funnel Analysis, A/B Testing, Customer Segmentation, Retention Analysis, Revenue Optimization
- Web & Marketing Analytics:** Google Analytics, Adobe Analytics
- Business & Operations:** KPI Design, Stakeholder Communication, Process Automation, Market Trend Analysis
